CSWG Process Review

Major Tabor

Range and Training Area Management Division

TECOM

Process Overview: Mission Summary

- To provide CSWG members with a general overview of each process associated with managing operating and maintaining ranges and training areas
  - Key processes: Develop Range Plans and Programs, Schedule, Operate, Control and Maintain range and training areas
  - Principal customers of the products/services are tenant units, transient units, sister services, federal, state and civilian organizations.
  - Base Commanding General provides ranges and training areas designed to meet the specific training requirements of habitual range users.

Core Assessment Table: Develop Range Plans and Programs

Justifying Core Critical Enablers

Subprocess	Justification
Range Req Definition	The function requires understanding the technical dimensions of warfighting problems and knowing who can solve those problems.
Range Design/ Development	The function requires understanding the technical dimensions of warfighting problems and knowing who can solve those problems.
Training/Exercise Support	The function requires understanding the technical dimensions of warfighting problems and knowing who can solve those problems. Ensures interoperability of warfare systems & warfighting capability.

NOTE: The designation "Core Critical Enabler" should be limited to those competencies that are essential to the warfighters' core competencies and that require governmental performance by Marines or civilian Marines.

Provide justifications on this chart for each subprocess identified as a "core critical enabler" on the Process Review Assessment Chart. Justifications should demonstrate that each subprocess is dedicated directly to command and control, to the determination of operational requirements, to recruiting and introductory training, or to the management, oversight and decision-making associated with the other specific competencies listed on *Core Critical Enablers – Marine Corps* (SEC brief, Slide 5) and that it meets the definitional criteria in *Core Critical Enabler* (SEC brief, Slide 10).
